Advance 1933 Prices

IN this year of bargains—here are special bargains! All the following stock is at a real bargain. It is Eastern grown and first class for specified grades, indicated by the number of times transplanted. It is a comprehensive List but does not by any means name everything we furnish. Other varieties and sizes quoted on request. On seedlings we cannot sell less than 100 of a kind at these prices but generally speaking 50 are at the 100 rate and 250 at the rate per 1000. Not before and perhaps never again will there be such an exceptional opportunity to buy good nursery stock.
